Footwear 22-23

Helmets, safety & rescue..... 24-26

Dry bags and duffels 27-34

Hand pumps 35-36

Transport 37-38

Paddleboards 39-44

for **every** water.
for **everyone**.

Elements Gear since 2012

The Elements Gear brand was founded in 2012 as a small production in Brno, Czech Republic. The products are based on more than twenty years of experience in white water sports. We initially started with the production of PFD's and life jackets and are gradually expanding our product range for other water sports, accessible from beginners to advanced riders. The Elements Gear life jackets and PFD's are produced and certified in the Czech Republic. We provide the highest quality for the reasonable price for all we make and in the production of the rest of the portfolio, we cooperate with reliable foreign partners. Our main focus is functionality and high quality of material processing, maximal quality of workmanship (selected products are certified according to EN ISO certification) and ultimate durability even in extreme conditions, under heavy load.

WE BASE OUR PRODUCTS ON BASIC ELEMENTS:

G guard

SAFETY is a must for all water sports. We specialize in life jackets and PFD's, that are being made in accordance with EN ISO to ensure maximum safety.

E extreme

The practical FUNCTIONALITY of products is always tested in the long term. Equipment such as dry bags and waterproof backpacks are also used for expeditions in extreme conditions.

A adaptable

The best performance with maximum COMFORT - proven patterns and cutting-edge materials ensure perfect comfort.

R resistant

The HIGH QUALITY of the materials is our main priority. Used materials meet all the requirements even in the most challenging conditions.

A stylized, handwritten signature in black ink that reads "Elements gear". The word "Elements" is written in a cursive script, and "gear" is written in a more casual, lowercase script below it.

PFD'S

Safety is a priority for all water sports. Elements Gear has its own life jackets and PFDs production, based in the Czech Republic.

Each life jacket and PFD meets all the strict certification requirements. Personal floating devices according to ČSN EN ISO 12 402-5 certification are designed for swimmers and help with swimming and active rescue in the water. Life jackets according to the EN ISO 12 402 – 4 certification are equipped with a neck collar, that keeps the head above the water, even in the case of unconsciousness. The jackets are made of proven and long-term tested materials. EG PFD's and life jacket fabrics are UV color resistant. We keep several permanent types and color options of PFD's and life jackets in stock.

We also specialize in **CUSTOM** production (fabric colors, logo and shoulder straps) based on specific customer requirements.

PERSONAL FLOTATION

MAIN FEATURES

- ▶ PFD's are certified according to EN ISO 12 402-5: Personal floating device.
- ▶ Adjustable shoulder and side straps for perfect fit to any shape and size.
- ▶ Straps ensure a perfect fixing of their length.
- ▶ High mechanical resistance of outer and inner material, long life warranty, high UV resistant.
- ▶ Certified SOLAS reflective tape on the back is in compliance with IMO Res. A.658 (17)
- ▶ Possibility of custom shoulder straps colors for simple size differentiation.
- ▶ Duraflex® buckles.
- ▶ YKK Zipper

All PFD's are designed for all water sports especially for water canoe touring (kayak, raft, canoe, paddleboards etc.) Due to the very high material durability and easy adjustment options, it is suitable for tourists as well as for canoe rentals, schools or agencies.

product number: Eg1005

LIFE JACKET

MAIN FEATURES

- ▶ Life jackets certified according to EN ISO 12 402-4: Personal floating device - Life jackets.
- ▶ Two horizontal and one center 2.5 cm strap for secured position of the waistcoat on a child 's body and proper position in the water.
- ▶ High mechanical abrasion resistance of external and internal material, providing long lifetime of jackets.
- ▶ High UV resistance.
- ▶ Duraflex® buckles.
- ▶ Certified SOLAS reflective tape in compliance with IMO Res. A.658 (16).
- ▶ Certified safety whistle complying with SOLAS regulations and requirements of EN394 / ISO 12402-8.
- ▶ Wide range of neon signal colors and colored straps to make the life jackets attractive and safe for the little ones.
- ▶ Possibility to add your own logo in front and back of the life jacket.

The BABY life jackets for little ones guarantee maximum safety in the water. EG kid's life jacket was developed especially for non- swimmers. Multiple carrying panels at the front of the vest ensure that the baby is facing up, when properly used. The jacket collar always keeps the baby's head above the water. Safety straps, including center strap, guarantee a perfect fit on the child's body.

PADDLING OUTERWEAR

Every water sport requires comfortable and flexible clothing and footwear. Elements Gear comes with the first versatile collection of two types of neoprene, neoprene footwear and socks that are suitable for riders of all performance levels. Clothes, shoes and socks are made of the highest quality neoprene, which has excellent thermal insulation properties and are also suitable for sea water. We developed products with the best ergonomics and maximum comfort.

BURT 3.0 - LONGJOHN

Flexible moving

product number: EG1009

The EG BURT longjohn is made of 3 mm thick neoprene, which ensures optimal thermal insulation comfort. Reinforcement at the knees and bottom parts increases abrasion resistance. Due to the slight side cut in the shoulder blades and shoulders area, it does not restrict paddling. Double hem and flat seams provide comfort and flexibility of the wetsuit. EG BURT is equipped with a two - way YKK zipper.

Material: elastic 3 mm quality SBR neoprene Color: black

Sizes: XS, S, M, L, XL, XXL

Sizes: EU 36-48

COMFORT HD 2.5 - SOCKS

Durable universal neoprene socks

product number: EG1024

High quality neoprene socks made of 2.5 mm SBR neoprene with reinforced soles. The sole is covered with abrasion-resistant SUPRATEX. Due to their minimal thickness, they are excellent as insulation in neoprene shoes or swim fins. Socks are also suitable for beach volleyball or even easier walking without shoes.

Material: SBR neoprene, Supratex reinforcement

Color: black

Sizes: EU 36-48

BLAN POGIES

product number: EG1025

The are made from the 5 mm SBR neoprene and are great for use in colder weather. The pogies are equipped with the flat seams and reverse internal partition against inflowing water. It's easy to put on the second bag using the drawstring and the teeth.

Color: black

HELMETS

SAFETY&RESCUE

To select the well-fitted lightweight and non-limiting helmet is the no. 1 priority in any water sport.

The helmet weight is an essential element for comfort. Its shape must follow the head and ears, so it is advised to use a tightening system to adjust the head circumference to the exact size. Elements Gear offers helmets with solid ear protection, foam padding, and headband tightening system.

DRY BAGS AND DUFFELS

Elements Gear specializes in manufacturing dry bags, water resistant and waterproof bags, for multipurpose use.

All bags are designed to protect and store valuables or clothing from water, dirt or sand. Welded seams and rolling cuff ensure the dryness inside the bag during quick underwater immersion.

Removable straps allow you to carry bags over the shoulder or on the back (except the model LIGHT).

They are ideal as transport dry bags for all water sports and outdoor activities.

The Elements Gear product range of bags includes the dry bag Elements Guard, which is produced from highly durable material, SEAL zipper and is ideal for extreme expedition conditions.

EG dry bags have been long term tested in collaboration with water clubs, rentals and agencies.

Weight: 3,6 kg

PADDLEBOARDS

Usage of paddleboards is very wide. From a relaxing ride on the calm surface of a lake or sea and practicing yoga on the water, through going down river, to riding in surf waves. While paddleboarding, you will improve your balance, coordination, physical condition and engage the muscles of your entire body evenly. SUP is designed for all age categories and thanks to its surprising simplicity, even a beginner will quickly learn and enjoy riding!

Elements Gear is introducing two types of paddleboards - one for beginners and calm water and another for advanced riders. Thanks to the affordable price with a good quality, the EG SUP boards are a perfect choice for the rentals, agencies, schools and other clubs.

The Elements SUP Valve is a practical replacement valve designed for paddleboards, ensuring optimal air pressure and reliable performance of your watercraft.

SIZING

GETTING THE RIGHT FIT

All measurements refer to body size. Please take the charts as a guide.

Chest – measure horizontally under the armpits around the fullest part of your chest and shoulder blades.

Bust – measure horizontally round the fullest part of your bust.

Waist – measure the waist circumference at the smallest part of your waist, often at the belly button. For most women this is about an inch above the belly button.

Hips – measure the fullest part of your hips. Inside leg – measure from your ankle bone to your groin.

KIDS SIZES Height is the most important measurement when buying for children.
