## **Elements Gear** since 2012

The Elements Gear brand was founded in 2012 as a small production in Brno, Czech Republic. The products are based on more than twenty years of experience in white water sports. We initially started with the production of PFD's and life jackets and are gradually expanding our product range for other water sports, accessible from beginners to advanced riders. The Elements Gear life jackets and PFD's are produced and certified in the Czech Republic. We provide the highest quality for the reasonable price for all we make and in the production of the rest of the portfolio, we cooperate with reliable foreign partners. Our main focus is functionality and high quality of material processing, maximal quality of workmanship (selected products are certified according to EN ISO certification) and ultimate durability even in extreme conditions, under heavy load.

### **WE BASE OUR PRODUCTS ON BASIC ELEMENTS:**

#### **G guard**

SAFETY is a must for all water sports. We specialize in life jackets and PFD's, that are being made in accordance with EN ISO to ensure maximum safety.

#### **E extreme**

The practical FUNCTIONALITY of products is always tested in the long term. Equipment such as dry bags and waterproof backpacks are also used for expeditions in extreme conditions.

#### **A adaptable**

The best performance with maximum COMFORT - proven patterns and cutting-edge materials ensure perfect comfort.

#### **R resistant**

The HIGH QUALITY of the materials is our main priority. Used materials meet all the requirements even in the most challenging conditions.

A stylized, handwritten signature in black ink that reads "Elements gear". The word "Elements" is written in a cursive script, and "gear" is written in a more casual, lowercase script below it.

# PFD'S

Safety is a priority for all water sports. Elements Gear has its own life jackets and PFDs production, based in the Czech Republic.

Each life jacket and PFD meets all the strict certification requirements. Personal floating devices according to ČSN EN ISO 12 402-5 certification are designed for swimmers and help with swimming and active rescue in the water. Life jackets according to the EN ISO 12 402 – 4 certification are equipped with a neck collar, that keeps the head above the water, even in the case of unconsciousness. The jackets are made of proven and long-term tested materials. EG PFD's and life jacket fabrics are UV color resistant. We keep several permanent types and color options of PFD's and life jackets in stock.

We also specialize in **CUSTOM** production (fabric colors, logo and shoulder straps) based on specific customer requirements.

# PERSONAL FLOTATION

## MAIN FEATURES

- ▶ PFD's are certified according to EN ISO 12 402-5: Personal floating device.
- ▶ Adjustable shoulder and side straps for perfect fit to any shape and size.
- ▶ Straps ensure a perfect fixing of their length.
- ▶ High mechanical resistance of outer and inner material, long life warranty, made in Czech Republic.
- ▶ Certified SOLAS reflective tape on the back is in compliance with IMO Res. A.658 (17)
- ▶ Wide range of outer material colors.
- ▶ Possibility of custom shoulder straps colors for simple size differentiation.
- ▶ Duraflex® buckles.
- ▶ Possibility to add your own logo in front and back of PFD

All PFD's are designed for all water sports especially for water canoe touring (kayak, raft, canoe, paddleboards etc.) Due to the very high material durability and easy adjustment options, it is suitable for tourists as well as for canoe rentals, schools or agencies.

### Sizes:

XS (volume 45N)  
S/M (volume 50N)

# LIFE JACKET

## MAIN FEATURES

- ▶ Life jackets certified according to EN ISO 12 402-4: Personal floating device - Life jackets.
- ▶ Two horizontal and one center 2.5 cm strap for secured position of the waistcoat on a child 's body and proper position in the water.
- ▶ High mechanical abrasion resistance of external and internal material, providing long lifetime of jackets.
- ▶ High UV resistance.
- ▶ Duraflex® buckles.
- ▶ Certified SOLAS reflective tape in compliance with IMO Res. A.658 (16).
- ▶ Certified safety whistle complying with SOLAS regulations and requirements of EN394 / ISO 12402-8.
- ▶ Wide range of neon signal colors and colored straps to make the life jackets attractive and safe for the little ones.
- ▶ Possibility to add your own logo in front and back of the life jacket.

The BABY life jackets for little ones guarantee maximum safety in the water. EG kid's life jacket was developed especially for non- swimmers. Multiple carrying panels at the front of the vest ensure that the baby is facing up, when properly used. The jacket collar always keeps the baby's head above the water. Safety straps, including center strap, guarantee a perfect fit on the child's body.

# PADDLING OUTERWEAR

Every water sport requires comfortable and flexible clothing and footwear. Elements Gear comes with the first versatile collection of two types of neoprene, neoprene footwear and socks that are suitable for riders of all performance levels. Clothes, shoes and socks are made of the highest quality neoprene, which has excellent thermal insulation properties and are also suitable for sea water. We developed products with the best ergonomics and maximum comfort.

## BURT 3.0 - LONGJOHN ♀♂

Flexible moving

product number: EG1009

The EG BURT longjohn is made of 3 mm thick neoprene, which ensures optimal thermal insulation comfort. Reinforcement at the knees and bottom parts increases abrasion resistance. Due to the slight side cut in the shoulder blades and shoulders area, it does not restrict paddling. Double hem and flat seams provide comfort and flexibility of the wetsuit. EG BURT is equipped with a two - way YKK zipper.

Material: elastic 3 mm quality SBR neoprene Color: black

Sizes: XS, S, M, L, XL, XXL

## TUNDER 4.0 - LONGJOHN ♀♂

Durable & flexible

product number: Eg1010

The longjohn is made of 4 mm thick neoprene, which ensures optimal thermal insulation comfort. Reinforcement at the knees and bottom parts increases abrasion resistance. Due to the slight side cut in the shoulder blades and shoulders area, it does not restrict paddling. Glued and blindstitched for waterproof seams. EG TUNDER is equipped with a two - way YKK zipper. Good value for money ratio makes the wetsuit popular for rentals and clubs.

Material: elastic 4 mm quality SBR neoprene Color: black

Sizes: XS, S, M, L, XL, XXL

♀ toilet zip

PREMIUM  
QUALITY

PREMIUM  
QUALITY

## REDY 3.0 - LONGJOHN

Comfortable longjohn for cold weather

product number: EG1011  
product number: EG1012

Premium wetsuit REDY is made of 3 mm thick CR neoprene. Inner quick-drying, soft and warm layer ensures thermal comfort in colder weather and in cool water. It provides ideal protection of the whole body with reinforcement at the knees and hips area. Double edging and flat seams ensure wetsuit durability and comfort. Slight side cut in the shoulder blades and shoulder area does not limit paddling movement. Longjohn is equipped with a two-way YKK zipper.

Material: elastic 3 mm premium CR neoprene Color: black

Sizes: S, M, L, XL, XXL

## CHICO 3.0 - KIDS LONGJOHN

Growing wetsuit

product number: EG1013

The kids growing wetsuit is made of 3 mm thick SBR neoprene. Extendable shoulder cuffs will ensure comfort and use for children for a longer period of time. The neoprene is thanks to the double hemming more durable. The flat seams secure the maximal comfort while wearing.

Material: elastic 3 mm quality SBR neoprene

Color: blue

Sizes: 6-8 years, 8-10 years, 10-12 years

## NINO 3.0 - KIDS LONGJOHN

Premium thermal wetsuit

product number: EG1014

EG Nino longjohn is made of 3 mm thick neoprene. Extendable shoulder cuffs will ensure comfort and use for children for a longer period of time. Inner quick-drying, soft and warm layer ensures thermal comfort in colder weather and in cool water. It provides ideal protection of the whole body with reinforcement at the knees and hips area. Double edging and flat seams ensure wetsuit durability and comfort.

Material: elastic 3 mm premium CR neoprene

Color: black/blue

Sizes: 6-8 years, 8-10 years, 10-12 years

PREMIUM  
QUALITY

## TUNA L/S NEOPRENE TOP

Flexible moving

product number: EG1015

The long sleeve top is made of 1,5 mm SBR neoprene. The lifted collar and no underarm seams prevent chafing. Stretches when wet. The fitted pattern with the perfect combination of neoprene and lycra under arms, secures maximum flexibility. The neoprene top is ideal as an economy solution especially for rentals.

Material: elastic 1,5 mm quality SBR neoprene

Color: black

Sizes: XS, S, M, L, XL, XXL

## TUNA S/S NEOPRENE TOP

Flexible moving

product number: EG1016

The short sleeve top is made of 1,5 mm SBR neoprene. The lifted collar and no underarm seams prevent chafing. Stretches when wet. The fitted pattern with the perfect combination of neoprene and lycra under arms, secures maximum flexibility. The neoprene top is ideal as an economy solution especially for rentals.

Material: elastic 1,5 mm quality SBR neoprene

Color: black

Sizes: XS, S, M, L, XL, XXL

## ORCA L/S NEOPRENE TOP

Warm and flexible

product number: EG1017

Premium long sleeve top is made of 1,5 mm CR neoprene. The ultra stretchy neoprene is bonded to a soft micro fleece liner. Warm, flexible and simple, for a superb connection with the water. The lifted collar and the underarm part are made from lycra to prevent chafing. The fitted pattern with the perfect combination of neoprene and lycra secures maximal flexibility.

Material: elastic 1,5 mm premium CR neoprene

Color: black

Sizes: XS, S, M, L, XL, XXL

## ORCA S/S NEOPRENE TOP

Soft and warm comfort

product number: EG1018

Premium short sleeve top is made of 1,5 mm CR neoprene. The ultra stretchy neoprene is bonded to a soft micro fleece liner. Warm, flexible and simple, for a superb connection with the water. The lifted collar and the underarm part are made from lycra to prevent chafing. The fitted pattern with the perfect combination of neoprene and lycra secures maximal flexibility.

Material: elastic 1,5 mm premium CR neoprene

Color: black

Sizes: XS, S, M, L, XL, XXL

## TRENY NEOPRENE SHORTS

Stretchy and thermal comfort

product number: EG1019

Our cold weather shorts. Extremely stretchy 3 mm SBR neoprene. They are cut higher at the back to suit a paddling posture. The shorts have reinforced seat parts against the abrasion. The usage is ideal for all water sports.

Material: elastic 1,5 mm SBR neoprene Color: black

Sizes: XS, S, M, L, XL, XXL

## ROCK 7.0 - BOOTS

Durable universal neoprene boots

product number: EG1020

These neoprene boots are made of 7 mm neoprene and are ideal for all water sports. Medium-hard outsole provides comfortable treading and protects from sharp objects in and out of the water. The stressed heel and instep points are reinforced and prevent rubbing. The shoes are equipped with a YKK zipper with a lock, which prevents spontaneous opening.

Material: 7 mm neoprene with double nylon lamination

Color: black Sizes: EU 36-48

## RIVER 5.0 - BOOTS

Universal neoprene boots

product number: EG1021

These neoprene boots are made of 5 mm neoprene with durable double nylon lamination and are ideal for all water sports. Medium-hard outsole provides comfortable treading and protects from sharp objects in and out of the water. The stressed heel and instep points are reinforced and prevent rubbing. The shoes are equipped with a YKK zipper with a lock, which prevents spontaneous opening.

Material: 5 mm neoprene with double nylon lamination

Color: black Sizes: EU 36-48

## SNEK 3.0 - SHOES

Low ankle water shoes

product number: EG1022

EG Snek shoes are made of 3 mm neoprene. The shoe has a firm, but still flexible sole. The tightening rubber at the ankle prevents the foot slipping out. It is suitable for all water sports eg. kite, wake, SUP, water slalom, but is also possible to wear as a swimming shoe by the sea.

Material: 3 mm neoprene with double nylon lamination

Color: black

Sizes: EU 36-48

## COMFORT 2.5 - SOCKS

Extreme flexibility and thermal comfort

product number: EG1023

Socks of 2.5 mm SBR neoprene are suitable for all water activities. Socks are excellent as insulation into shoes or swim fins.

Color: black

Sizes: EU 36-48

## COMFORT HD 2.5 - SOCKS

Durable universal neoprene socks

product number: EG1024

High quality neoprene socks made of 2.5 mm SBR neoprene with reinforced soles. The sole is covered with abrasion-resistant SUPRATEX. Due to their minimal thickness, they are excellent as insulation in neoprene shoes or swim fins. Socks are also suitable for beach volleyball or even easier walking without shoes.

Material: SBR neoprene, Supratex reinforcement

Color: black

Sizes: EU 36-48

## BLAN POGIES

product number: EG1025

The are made from the 5 mm SBR neoprene and are great for use in colder weather. The pogies are equipped with the flat seams and reverse internal partition against inflowing water. It's easy to put on the second bag using the drawstring and the teeth.

Color: black

## HELMETS

To select the well-fitted lightweight and non-limiting helmet is the no. 1 priority in any water sport.

The helmet weight is an essential element for comfort. Its shape must follow the head and ears, so it is advised to use a tightening system to adjust the head circumference to the exact size. Elements Gear offers helmets with solid ear protection, foam padding, and headband tightening system.

XS - L/XL

XXL\*

### HUSK

Water sport helmet

product number: EG1026

Very light and versatile water sport helmet with hard ear protection. Thanks to the excellent tightening system, the helmet fits literally everyone. Foam padding and chin strap with rubber secure more comfort.

Material: ABS plastic with colored coating / print, EVA inner line

Color: green, orange, red, black, white

#### Sizes:

XS Junior (49-55 cm)

S/M (52-58 cm)

L/XL (56-62 cm)

XXL\* (62-64 cm)

\* without adjustment system and ear protectors

Weight: 450 g  
CE EN 1385 Certified

## TRAP

### Water sport helmet

product number: EG1027

Versatile light helmet for white water, rafting, kite with solid ear protection. The helmet is equipped with drain holes for better airflow. Tightening systems in 2 sizes and foam padding adapt to the shape and size of the head. This helmet is ideal for all water sports.

Material: ABS plastic, EVA inner liner

Color: black matt, blue matt

Sizes: M (50-58 cm), L (56-64 cm)

CE EN 1385 Certified

## SAFETY & RESCUE

### KAYAK 18M

#### Throw bag

This aid is a must in every boat. The cover is made of very strong Cordura material. It has a small volume for better storage in a kayak. The conical shape pouch is for easier rope unwinding. Floating core rope (rope strength exceeds 1300 daN) with a length of 18 m. There is a large plastic strap on the upper edge for easy fit on the carabiner.

product number: EG1028

### WHISTLE

#### Certified whistle for water sports

It is suitable for connecting to a life jacket using a cord (not included in the package).

product number: EG1029

# DRY BAGS AND DUFFELS

Elements Gear specializes in manufacturing dry bags, water resistant and waterproof bags, for multipurpose use.

All bags are designed to protect and store valuables or clothing from water, dirt or sand. Welded seams and rolling cuff ensure the dryness inside the bag during quick underwater immersion.

Removable straps allow you to carry bags over the shoulder or on the back (except the model LIGHT).

They are ideal as transport dry bags for all water sports and outdoor activities.

The Elements Gear product range of bags includes the dry bag Elements Guard, which is produced from highly durable material, SEAL zipper and is ideal for extreme expedition conditions.

EG dry bags have been long term tested in collaboration with water clubs, rentals and agencies.

## EXPEDITION

durable dry bag

product number: EG1030

The dry bags EXPEDITION are made of highly durable Tarpaulin waterproof fabric. The bags are designed for extreme conditions.

Material: highly UV resistant and abrasion-resistant Tarpaulin

Color: lime, aqua  

Volume: 5L, 20L, 40L, 60L, 80L

## PRO

PVC dry bag

product number: EG1032

The EG PRO dry bags are made of PVC and can be used for various sports in everyday conditions.

Material: Highly UV resistant PVC

Color: black, gray, yellow, pink

Volume: 5L, 20L, 40L    

## TRANSPARENT

Transparent dry bag

product number: EG1031

The dry bag is made from transparent material, equipped with 1 or 2 straps, depending on bag volume.

Material: Transparent polyester

Color: Transparent 

Volume: 5L, 10L, 20L, 40L, 60L

## LIGHT

Light dry bag

product number: EG1033

The dry bags are made of lightweight nylon. The material is durable and resistant.

Material: Ripstop polyester.

Color: red, lime  

Volume: 5L, 10L, 25L

## CORDURA LIGHT

Ultralight dry bag

product number: EG1034

The ultralight dry bag is produced from 30D Cordura material. The ideal usage is to separate the dry and wet equipment. Suitable for clear arrangement and protection of your equipment.

Material: 30D Cordura with PU coating

Color: reflective orange   
Volume: 4L, 14L, 30L

## VIEW

Semi-transparent dry bag

product number: EG1035

The Elements view bag is a semi-transparent dry bag with shoulder strap. Thanks to the transparent part of the bag you have a perfect overview of the stored equipment.

Material: 210T Ripstop with PVC coating

Color: lime   
Volume: 3L, 10L, 25L, 50L, 80L

## W-BAG 4L

Waterproof waist bag

product number: EG1037

Waterproof waist bag serves to protect the most important personal belongings. The waist bag is equipped with a rolling cuff closing. It has an easy and quick access pocket with AquaGuard® zipper.

Material: 500 PVC Tarpaulin

Color: gray, green    
Volume: 4L

## CARRY

Dry bag

product number: EG1036

The Elements Carry dry bag is made of ultra-durable PVC Tarpaulin, with shoulder strap and pocket with waterproof AquaGuard® zipper.

Material: 500 PVC Tarpaulin

Color: gray   
Volume: 10L, 25L

## GUARD

Waterproof duffle bag for extreme and expedition use

product number: EG1038

Expedition bag is made of highly durable material with a SEAL zipper. The bag has reinforced bottom, Duraflex® buckles and maximum solid straps. It is suitable for the most demanding conditions.

Material: 840D TPU

Color: red   
Volume: 95L, 125L

## DISCOVERY 100L

Water resistant duffle bag

product number: EG1039

The EG Discovery travel bag is ideal for adventurers expecting extreme performance. The bag is equipped with water and abrasion-resistant material, massive two-way zip, shoulder straps for easy carrying on the back, handles for carrying in the hands, quality Duraflex® buckles, inner pocket and reinforced bottom.

Material: 55C PVC Tarpaulin + 500D PVC Tarpaulin (A-S leather)

Color: gray, orange    
Volume: 100L

## FORESTER 80L

Dry backpack

product number: EG1040

The waterproof Forester backpack is an ideal companion for various outdoor activities, as well as a luggage case. The backpack is equipped with adjustable, padded shoulder straps with handles. Front pocket is secured with an AquaGuard zipper. The bag has additional side mesh pocket and side drawstrings for attaching optional equipment.

Material: 500 PVC Tarpaulin

Color: gray camouflage   
Volume: 80L

## ROLLER 100L

Water resistant duffle bag

product number: EG1041

Roller is a water resistant duffle with rolling cuff. The bag has water and abrasion-resistant material, strong transport straps, Duraflex® buckles and reinforced bottom.

Material: 55C PVC Tarpaulin

Color: gray   
Volume: 100L

## CORONER

Water resistant duffle bag

product number: EG1042

The Coroner outdoor bag is equipped with a circular AquaGuard® zipper, reinforced bottom, Duraflex® buckles and internal detachable pocket.

Material: 55C PVC Tarpaulin + 500D PVC Tarpaulin (A-S leather), reinforcement of the bottom

Color: green   
Volume: 95L, 125L

# HAND PUMP

## **BRAVO SUP 4-D**

Double action SUP pump

Bravo SUP 4 - D is a double action SUP hand pump with air pressure manometer. It has a ALU piston rod.

product number: EG1043

## **GM BRAVO 4L**

Double action pump 4L

The GM Bravo 4L is a double action hand pump. The pump is equipped with a protection against dust and dirt. You can switch between inflating and deflating mode. It is suitable for inflatable boats, kites and mattresses.

product number: EG1043

## **GM BRAVO 4L ALU R.E.D**

Double action pump 4L

GM BRAVO is a double action pump with ALU piston rod of 4L capacity. It has a R.E.D (Reduced Effort Device) system, which means automatic switching from double action to single action. It allows you to inflate (over 400 mbar) at reduced effort. You can switch between inflating and deflating mode. The pump has a protection against dust and dirt. The pump is suitable for inflatable boats, kites and mattresses.

product number: EG1044

Model	Dimensions	Capacity	Max. pressure
GM Bravo 4L	11 x 22 x 45 cm	2 x 2000 cc (2x 2L)	500 mbar (7.2 psi)
GM Bravo 4 ALU	11 x 22 x 47 cm	2 x 2000 cc (2x 2L)	800 mbar (11.6 psi)
Bravo SUP 4-D	14 x 30 x 63 cm	2 x 2000 cc (2x 2L)	2.0 bar (29 psi)

# TRANSPORT

## V-KAYAK

### V shape roof rack

product number: EG1045

The roof rack EG V - kayak is in the V shape. Thanks to its V-shape, it is gentle on the transport of kayaks and boats. It is suitable for kayaks, sea kayaks and canoes. Two fastening straps are included in the package.

## J-KAYAK

### J shape roof rack

product number: EG1046

EG J kayak roof rack is a basic rack in the J shape for gentle transport of boats on the car roof. It is suitable for sea kayaks and slalom and inflatable boats. Two, fastening straps are included in the package.

Material: steel + foam tube against kayak damage

## Courier

### Transport trolley

product number Courier: EG1047

This smaller size, folding ALU transport trolley for kayaks and canoes, meets a top quality. The trolley is equipped with the solid, puncture-proof 200 mm PU wheels. The wheels are easy to remove. Fastening straps are included in the package.

## Courier XL

### XL transport trolley

product number Courier XL: EG1048

This folding ALU transport trolley for kayaks and canoes meets a top quality. The trolley is equipped with the solid, puncture-proof 250 mm PU wheels. The wheels are easy to remove. Fastening straps are included in the package.

Material: aluminum 22 x 2 mm

Weight: 3,6 kg

Material: aluminum 19 x 2 mm

Weight: 2,3 kg

# PADDLEBOARDS

Usage of paddleboards is very wide. From a relaxing ride on the calm surface of a lake or sea and practicing yoga on the water, through going down river, to riding in surf waves. While paddleboarding, you will improve your balance, coordination, physical condition and engage the muscles of your entire body evenly. SUP is designed for all age categories and thanks to its surprising simplicity, even a beginner will quickly learn and enjoy riding!

Elements Gear is introducing two types of paddleboards - one for beginners and calm water and another for advanced riders. Thanks to the affordable price with a good quality, the EG SUP boards are a perfect choice for the rentals, agencies, schools and other clubs.

JAVA 106

JAVA 106 SEAT

## JAVA 106 JAVA 106 SEAT

Speedy and stable  
paddleboard

product number: EG1049  
product number: EG1050

Speedy, but at the same time stable paddleboard, suitable for fitness rides on both rivers and open water levels. Thanks to the long removable center fin perfectly keeps direction.

**Construction:** durable dropstich core material and non-slip foam foam.

**Package includes:** pump with manometer, transport case and three-part adjustable paddle

**A NEW  
PRODUCT  
COMING  
IN 2023**

## SIZING

### GETTING THE RIGHT FIT

All measurements refer to body size. Please take the charts as a guide.

**Chest** – measure horizontally under the armpits around the fullest part of your chest and shoulder blades.

**Bust** – measure horizontally round the fullest part of your bust.

**Waist** – measure the waist circumference at the smallest part of your waist, often at the belly button. For most women this is about an inch above the belly button.

**Hips** – measure the fullest part of your hips. Inside leg – measure from your ankle bone to your groin.

**KIDS SIZES** Height is the most important measurement when buying for children.
